

TRUCK AND TRAILER MECHANIC (NIGHT SHIFT)

Danfreight Systems Inc. is a Company located in Joliette specialized in isothermal transport between Quebec and the American West Coast. The company is currently looking for a truck and trailer mechanic to join his evening team. The person in charge will perform mechanical maintenance and necessary repairs of the trucks to ensure the proper operation of the equipment and the safety of the drivers on the road. The employee will work from 15:30 to 00:00, 1 weekend out of 4.

CHALLENGES RELATED TO THE POSITION

1. Perform inspection of trucks;
2. Perform diagnosis to determine the nature of the failures and specify the repairs to be made;
3. Repair or replace defective parts;
4. Test the truck after repairs have been made to ensure that the equipment is working properly and repairs are correct;
5. Complete the work orders after each repair performed;
6. Carry out various maintenance work (welding, grinding of parts, etc.).

COMPETENCIES REQUIRED

- Diploma of Professional Studies in Heavy Vehicle Mechanics (DEP) or equivalent diploma;
- Experience in a similar position – an asset;
- Be accredited for the Preventative Maintenance Program (PEP) (important asset);
- Problem-solving skills;
- Autonomy;
- meticulousness;
- Teamwork and collaboration.
