DRIVING EXPERIENCE

# Equipment

Challenger's First Class comfort feels like home on the road, with new equipment, a comfortable cab and the tools for making driving easier.

Challenger uses late-model tractors and trailers, most under three years old. Our fleet consists of Freightliner, Peterbilt, Kenworth and Volvo trucks. They are outfitted with comfortable interiors including SiriusXM Satellite Radio for our drivers' enjoyment, Bluetooth, CB Radios, satellite communication and telematics tracking. We keep up with new technology and comply with regulations such as ELD. We limit down-time and unnecessary delays with our best-in-class maintenance, keeping our fleet in great shape. Keep comfortable in Challenger's First Class Equipment.

## Hiring Professional Drivers!

We're hiring AZ / Class 1 Drivers. Also seeking Owner Operators. Contact us today!
